For what purpose do we process your personal data?

The aim of the Vaasa International Talents programme is to provide international degree students participating in the programme with knowledge and tools which will help them to find connections to working life and, as a result, enable them to establish themselves in Finland after graduation. Part of the support provided by the programme relates to networking activities. Networking by nature is more long-term than the few months when the students are actively participating in the programme. The programme aims at building relationships and give support to the programme participants which last beyond programme participation. For this purpose, the programme maintains an Alumni network, to which all programme participants are invited after each programme round. Those who explicitly wish to be included in the Alumni network are added to the register of programme alumni. Their contact information is used for communication purposes, such as for inviting the alumni to networking activities arranged or for the purpose of engaging alumni in aspects of programme development.

Novia University of Applied Sciences has by the Vaasa Consortium of Higher Education been assigned the coordinating role of the Vaasa International Talents programme.
