THEME: TRANSITIONING TO AN ALL-RENEWABLE ENERGY FUTURE

The Gas COE & Energy Storage projects welcome you to a half-day seminar to mark the end of the Gas COE project & highlight activities in the Energy Storage project. Join us and get first hand information from experts on how various energy sectors are working towards a future low-carbon society.

Program:

- 12:05-12:10 Opening remarks- **John Dahlbacka**
- 12:10-12:30 Gas CoE Project- **Cataldo De Blasio**
- 12:30-12:50 Energy Storage Project- **Cynthia Söderbacka**
- 12:50-13:35 Main Speaker- Compression & Transport of Raw Biogas-**Jon Hovland** (SINTEF Industry, Norway)
- 13:35-14:00 The Role of Gas & Energy Storage towards a 100% Renewable Energy Future- **Niklas Wägar** (Wärtsilä)
- 14:00-14:30 Fuels & Chemicals by Power-to-X: Test Pilots- **Pekka Simell** (VTT Finland)
- 14:30-15:00 Coffee Break
- 15:00-16:00 **Panel Discussion**
- 16:00 End of Program

On the panel discussion:

Moderator-	Pekka Simell	Niklas Wägar	Jon Hovland	Johan Saarela	Riitta Björkenheim	Margareta Björklund
Charlotta Risku (Mirka)	(VTT)	(Wärtsilä)	(SINTEF Norway)	(Stormossen)	(VASEK)	Sänkiahö (Projects/ÅA)
